APU Repair and Overhaul

At TAG Aero we have a full range of APU and LRU repairs and services embedded into the organization. Competitive pricing, guaranteed turnaround times, and flexible terms allow us to be at the frontline of your APU repair and overhaul needs.

APU Sales

TAG Aero is a leading provider in the market segment. With a growing inventory we are able to offer unbeatable outright and exchange pricing on both complete APU's and APU spares.

APU Leasing

Our extensive APU portfolio allows us to support your fleet with flexible and cost effective leasing options ranging from 1 month to 5 years. Under any circumstance, TAG Aero has got you covered.

APU Teardowns

APU disassembly is a critical step of the MRO supply chain, which is why we offer the fastest turnaround time in the industry.

APU Procurement

If you're selling, we're buying!
We are diligently seeking opportunities to purchase commercial APU's and related material.

The Numbers Speak Volumes

With over 1000 APU's repaired and 230 combined years experience stemming from industry-leading airlines, MRO's, and traders we can ensure reliability and remarkable turnaround times.

Save Time and Money

The cost of your APU repair starts with the parts which is why it's important to have a constant supply of APU related material in house. A consistent flow of APU teardowns results in a large quantity of material ready to be booked into your job. By relying solely on our own inventory, we are typically able to save you 20% on each APU repair. So ask yourself.... Why pay more?

In-House LRU Repairs

Having in-house LRU repairs saves significant time and money when it comes to repairing your APU's which is why we have developed a comprehensive LRU capability list for our supporting APU's.

LEASING & EXCHANGES

With over **100 APU's** in our pool, we are able to craft unbeatable leasing and exchange offers.

From short and long term leasing to on site spares, TAG Aero has a tailored solution to fit your needs. We make it seamless and cost effective to keep flying while your APU is being repaired at our facility.

Looking to avoid overhaul downtime? TAG Aero offers flat rate exchanges for every aircraft application!
